Supporting the Education of New Century Leaders

## Support Project P2: Parents & Partners

by Nicky Rosenbluth

It's **Annual Fund** time, and this is the time that ANCS and your children need you most. As you are aware for most private schools, tuition covers about 70%-80% of their operating budgets. For this reason, many private schools launch annual fund campaigns to supplement their operating budgets.

ANCS has launched the 2006-07 Annual Fund, Project P2: Parents & Partners to augment our operating budget. For ANCS to be considered as qualified to receive grants, donations and corporate sponsorship, all of our parents, staff, family, friends and corporate partners must continue to support of our school by actively contributing to the Annual Fund. As we mentioned earlier this year, your pledge amount can be met through participation in PTO fundraisers. We are a 501 C3 organization and therefore your contribution is tax deductible. Without your support, we will not be as successful as we want to be in

this or any year. You may want to consider asking friends, families and co-workers to add ANCS to their Holiday gift list by donating a pledge for education. Many of your companies have matching funds available (check with your HR Department).

Here are some tips when asking your circle of family and friends for pledges

**Tell your own story.** Why you chose ANCS and why you believe in it? You're here for a reason share that reason and what you feel your child is getting out of this experience and what the potential future experience is for your child.

**Talk about our vision statement.** ANCS is a world-class learning institution in downtown Atlanta, incorporating the educational and cultural resources of our city and our world. How do we do it? Our weekly field trips to the libraries, museums aquariums and theatres in the city are incorporated into our lesson plans. Parents working downtown can participate in their children's educational activities.

**Talk about our mission.** - *Atlanta New Century School is an independent private school for boys and girls. Our mission is to provide and build academic and life skills for all students, developing them for continuous growth and maturity.*

## Upcoming Events
